QUIET DAY WITH THEBANKS

Business Continues Steady, with an Entire Absence of Unusual Features.

Wholesale Dealers Find that Collections Are Improving-Grains Firmer, but Without Important Changes in Quotations.

MONEY AND STOCKS,

The Usual Comparison of Clearings and Balauces-A Steady Business.

Bankers report business steady, but uneventful. Collections among wholesalers are improving, the farmers now being engaged in paying the country merchant. The clearings of the six associated Indianapolis banks yesterday amounted to \$552,-202.86: balances, \$63,506.17. At the corresponding date last year the clearings were \$554,705.88; balances, \$50,877.42.

NEW YORK QUOTATIONS. At New York vesterday money on call was easy at 14 to 2 per cent., the last lean being made at 2, closing offered at 2 per cent.

Prime mercantile paper, 34 @54 per cent. Sterling exchange was quiet but strong at \$4.5% for sixty-day bilis and \$4.884 for demand.

The total sales of stocks were 1,437,442 shares, including the following: Atchison, 83,915; Chicago Gas, 42,685; Chicago & Eastern Illinois preferred, 4,574; Delaware, Lackawanna & Western, 36,070; Delaware & Hudson, 21,450; Erie, 154,890; Louisville & Nashville, 26,150; Missouri Pacific, 4,000; Northwestern, 7,270; North American, 5,917; Northern Pacific preferred, 40,690; Reading, 572,942; Richmond & West Point, 8,770; St. Paul, 53,850; St. Paul & Omaba, 3,548; Union Pacific, 16,560; Western Union, 4,175.

The stock market was exceptional in every respect. In point of activity and the extent of the advances scored it was entirely unprecedented. No less than four different stocks showed sales last evening of more than 100,000 shares, and notwithstanding the enormous trading in Reading during the previous four days, its total yesterday was over half a million. The gains were still on a large scale and the extreme fluctuations of Jersey Central, on a comparatively moderate business was 81/2 per cent. The stimulus extended to other stocks than the coalers; but only to those which are bee lieved to be favorably affected by the new deal, including New England and New york, Ontario & Western. The coal stocks in general were bought with great confidence throughout the day by investors as dence throughout the day by investors as \$1.20; peas, marrowfat, \$1.10@1.20; well as speculators, and despite the fact that the general list was under the ban of that the general list was under the ban of red cherries, 95c@\$1.10; strawberries, \$1.20 heavy pressure by both London and the @1.30; salmon (lbs). \$1.35@2.50; 3-pound trade, as well as the professional bears, the concessions were in most cases insignificent and the final changes unworthy of note. The dealings, it may be noticed, extended to a smaller number of stocks than usual of late, ewing to the overpowering interest in the leading shares. The lowpriced specialties were all but entirely

LARGEST CROWD EVER SEEN. The market opened with great activity, and at materially higher figures in most cases, Reading being up 21/8 per cent., and the crowd on the floor waiting for the sound of the gavel was the largest ever seen waiting for a trade in any one stock since the foundation of the exchange, The excitement was intense, and the trading in the stock for the first quarter of an hour reached considerably over 100,000 shares, lots of 1,000 shares being exceptionally small at the time. The price rose steadily, in the face of the heavy realizations, to 64, at which point it halted and went back, but in the late trading 64% was touched, and the stock closed at 64 %. with a net gain of 84 per cent. Jersey Central was more rapid in its movements, being rushed up from 130 to 1381/2, closing at 137. Delaware & Hudson was raised more rapidly in the late trading, and closed at two portions of the late trading, and closed at two portions are the late trading are trading are the late trading are the late trading are trading are the late trading are trading which was specially sluggish in the forenoon, was advanced sharply the same time, rising from 157 to 163. closed 2 per cent. lower, with a gain of only 4's per cent. New England was very largely traded in, and rose from 48% to 56%, and closed at 534, a gain of 4% per cent. The

most marked feature, however, was the sudden extreme activity and strength in Ontario & Western, which was one of the four stocks whose sales reached over 100,-000 shares, and its price was raised from 1944 to 284s. Its final gain was 27sc per cent. Erie, St. Paul, Northern Pacific preferred and Atchison among the railroad stocks, and Chicago Gas among the industrials were specially active. The last named was especially strong for a time, crossing 80, but failed to hold the improvement. Rock Island was the weak point in fully recovered its loss later, and closed unchanged at 91. The general list was comparatively neglected, and fluctuated within narrow limits, in marked contrast to the few leaders, in which sales on the balges led to sharp declines, but were always followed by equally sharp rallies. The close was strong and confident at practically the best figures, and was made on an extremely large volume of business.

The railroad bond market showed the same general characteristics as the share list, and, with enormous transactions in the Reading issues, the grand total was run up to an unprecedented figure. The strength in those bonds, however, failed to stimulate any very marked gains in the rest, though a strong temper prevailed all through the session. The third incomes slope failed to make a handsome advance for the day, and the firsts rose 3% per cent., at 78%, and the seconds at 69. Government bonds were dull and steady. State bonds were neglected. Closing quo-

AFTER A HARD DAY'S FIGHT

Wherein Pardridge Was a Terror, Wheat Closed a Point Above the Opening.

Chicago Market Partially Recovers from the Anti-Option-Bill Scare Only to Fall Into the Clutches of a Powerful Bear.

TRADING AT CHICAGO.

Holiday on the Board To-Day, It Being

Lincoln's Birthday, CHICAGO, Feb. 11.-Though less sensitive than yesterday the wheat market was nevertheless quite nervous and subject to numerous small fluctuations, with one or two tolerably wide ones, but on the whole the changes in prices were not so violent as those of the preceding day. At the close values were unchanged in comparison with yesterday. While the market for both grain and provisions was undeniably still unfavorably influenced by the threatened antioption legislation in Congress, it was not so thoroughly dominated by it as it had been for the two days preceding. However, as it came out from beneath the influence of the Hatch bill to some extent, it fell under a scarcely less bearish influence-that of Pardridge. Cables came a little stronger this morning and domestic markets generally showed some improvement, and the early feeling here was strong. Baldwin-Farnum, Schwartz-Dupee, Harry Lester and others were good buyers, presumably on New York orders. The liberal export movement from New York and Boston -475,000 bushels-added materially to the early strength. But the selling soon became vigorous, Pardridge leading off with heavy short saies, and there was also liberal realizing, under which there was a sharp break. Later some strong cables from Paris turned the market again, but the improvement did not hold and a nervous feeling prevailed on the decline. On the breaks Pardridge was a good buyer, but he almost invariably put it out again on all the material rallies. During the last hour the feeling was dult until near the close, and then there was some sharp buying, mostly to cover shorts, in consequence of the holiday to-morrow for Lincoln's birthday, and there was a smart rally. May opened at 89% @90% c, against 89% cat the close yesterday; sold up to 90% c, back to 89% c, advanced to 90c. back to 894c, rallied to 904c. receded to 8 %c. fluctuated narrowly for a time, touched 89 c, advanced to 90 %c, and closed steady at 89% c.

Corn showed a good deal of firmness at the start, largely due to the better tone, in which May sold from 4140 to 424c. But there was not much activity and holders, owing to the uncertainty attending pending legislation, deemed it a favorable time to close out and sold freely. These offerings, with a drop in wheat, caused a weak feeling and the price went back gradually to 42-c, the market growing dull with narrow fluctuations, and the close was steady at 42%c, the same as the closing price of yesterday. The current receipts were larger than was expected and included fifteen cars of the contract grade. Oats were quiet and easy, fluctuating in sympathy with corn and closing at un-

changed prices. Hog products were a little stronger early, but soon weakened on the ample receipts of hogs and the weaker prices at the yards. ruled steady during the last hour and closed easy at immaterial reductions from yesterday's final figures. Estimated receipts for to-morrow are:

Wheat, 90 cars; corn, 240 cars; oats, 140 cars; hogs, 27,000 head. The leading futures ranged as follows: |Op'ning | Highest. | Lowest. | Closing. Options. Wheat-Feb. Corn-Feb ... March. Oats-Feb.... Eggs quiet and easy; Western, 284 @290;

receipts, 1,939 packages.

Western steam closed at 6.85e bid; sales, 1,250 tierces at 6.85@6,87c. Options—Sales, 740 tierces; February, 6.83c; March, 6.85c;

Butter quiet and weak; Western dairy, 18@23c; Western creamery, 21@31c; Western factory, 16@23c; Elgin, 31c.

The Daily Trade Bulletin publishes a statement of the world's available supply of wheat and flour in second hands, the flour being reduced to wheat in bushels. The supply of Europe on Feb. 1 was 17,-5:0,000 bushels, against 105,250,000 bushels on Jan. 1; and 112,000,000 bushels on Dec. 1 last. In the United States and Canada the supply on Feb. 1 was 89,857,000 bushels, against 95,548,000 bushels on Jan. 1 and 81,343,000 bushels on Dec. 1.

FLOUR BUSINESS PICKING UP.

Past Week's Output at Minneapolis Averaged 27,717 Barrels Daily. MINNEAPOLIS. Feb. 11 .- The Northwestern Miller says: There was quite a gain in flour last week, more of the mills being in operation. The week's production was 163,455, averaging 27,717 barrels daily, against 167,700 barrels the previous week, 116,015 barrels the corresponding week in 1891, and 115,880 barrels in 1890. One more mill is running this week, and the output will probably show an increase. Sixteen mills were running Wednesday, grinding at the rate of about 27,500 barrels per twenty-four hours. Most of the mills now have a supply of orders ahead, and they are running as strongly as practicable to fill them. The only idle mills are those which are unable to run from lack of water or other causes. In some cases millers, unable to grind as much flour as they need, are looking around outside for supplies. One concern here is reported to have over 200,000 barrels of orders on its books, though running its mills at the fullest capacity steadily. For a week back the flour market has been more active, and something over the preduction for that time has been sold. In sympathy with higher wheat there was quite free buying, especially in this country, during the two closing days of last week, and on Monday and yesterday foreign offers made before the break in wheat came in large blocks. One firm sold 350 cars, of which 120 of patent and 110 of bakers' were for export. Others did preportionately as well. The continent having apparently disposed of stock previously accumulated, some very good sales have been made. A few millers report that they are able to sell the larger part of their low grades in this country, the advance in feed helping the feature of the trade. Prices are practically unchanged. The direct exports of flour last week were 62,520 barrels, against 53,000 barrels the preceding week.

TRADE IN GENERAL

Quotations at St. Louis, Philadelphia, Baltimore, Cincinnati and Other Points. ST. LOUIS, Feb. 11.—Flour firm but un-changed. Wheat—Cash firm and higher; No. 2 red, 88½ @90c. Options were unset-tled and fluctuated from %c higher to 4c lower than yesterday, and closed 4c above yesterday. February, 85c, nominal; March, 894c; May, 914sc asked; July, 864sc bid. Corn advanced 4 @ sc early, but soon lost it and closed about the same as yesterday. No. 2, cash, 36%c; February, 36%c; March, 374c; May, 383c. Oats—cash firm; No. 2, cash, 304c; May better at 31%c. DAILY, SUNDAY AND WEEKLY.

The Journal is first of all a newspapen Its primary object is to publish the news. and to secure this it spares no pains or expense. Besides the service of two great news agencies, which cover foreign countries as well as the entire United States, it has a corps of Special Correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana public. Its Washington bureau was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of an Indiana man well acquainted with the local business and political issues. It has a correspondent in every town of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter. Its staff of city reporters is large, and its local departments are unexcelled. As a newspaper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all is endeavors to be accurate and trustworthy, printing the news, whatever is may be, without personal or partisan

But while the Journal is non-partisan as to news, it is a Republican paper, and sets forth Republican principles. It is important that the people shall read the truth about these principles, and it was with the object of putting everybody in the way of doing so that the price of the

- Was reduced to -

A WEEK

No other method of securing a Republican victory at the polls is so certain as the circulation of Republican papers among voters. Since the reduction in the price thousands of subscriptions have poured in from all parts of the State, showing that a need was supplied. In order to have the proper influence, and effect upon voters seeking for trustworthy information the Journal should go into their hands at once, and not next spring or summer. Clubs are being formed and agencies established wherever daily mails reach, and as rapidly as traveling agents can visit the places, but Republicans in each and every locality cannot do their party greater service than to interest themselves in circulating the Journal.

The Sunday Journal

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and often twenty, pages a variety of

CHOICE READING MATTER

That satisfies the most exacting taste. The same reasons that call for the immediate extension of the the daily circulation apply to the weekly. This is carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscription price, \$1, with reduction to clubs, places it within the reach of all, and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Republican doctrine.
